Gen Z and the Challenges/Opportunities Driving Their Financial Mindsets

2016 M.O.O.D. of America
Measuring Optimism, Outlook and Direction

August 11, 2016
Methodology

Results for the 2016 M.O.O.D. (Measuring Optimism, Outlook and Direction) of America poll are based on two national surveys conducted by Whitman Insight Strategies on behalf of Lincoln Financial Group from March 22 – April 4, 2016.

The M.O.O.D. of America survey was conducted among 2,267 adults 18 years of age and older across the United States, and included a sample of the General Population as well as over-samples to ensure data cuts by key demographic sub-groups that are of particular interest for this research. The final sample includes 405 African Americans, 402 Asian Americans, 402 Latino Americans, and 418 LGBT Americans.

The M.O.O.D. of Gen Z survey was conducted among 400 members of Generation Z (ages 15-19) across the United States.

Both samples were weighted to reflect the proportion of these audiences by gender, age, region, race and Hispanic/Latino ethnicity based on data from the U.S. Census Bureau. The margin of error is ±1.9% at the 95% confidence interval for U.S. Adults 18+, and ±4.8% for Generation Z.
Gen Z is more optimistic than older generations, and as in control of their lives as Millennials, Gen X, and Baby Boomers.

Those less likely to have started researching or talking about saving for the future include Young Women, (60% vs. 68% of Young Men), Midwesterners (54%), and Gen Z who don’t have loans now but expect to in the future (58%)
Gen Z rely on parents most for financial advice, and are also highly likely to use digital channels and talk with others.

College is a major transitional touchpoint, as College Students are less likely than High Schoolers to rely on their parents, and more likely to use online search and other channels where financial services companies can directly engage with them (investment blogs, newspapers).
Gen Z are already using financial management and payment tools at nearly the same pace as Millennials.
But they do not know enough right now about the benefits that many of Lincoln’s products can provide.

Here is a list of several financial products. For each, please indicate if you plan to buy this in the future, if you don’t plan to buy it in the future, or if you don’t know enough right now to say.

- **Health Insurance**: 77% Plan to buy, 23% Don't plan to buy, 10% Don't know enough
- **Life Insurance**: 66% Plan to buy, 34% Don't plan to buy, 18% Don't know enough
- **Dental Insurance**: 65% Plan to buy, 35% Don't plan to buy, 18% Don't know enough
- **Vision Insurance**: 54% Plan to buy, 46% Don't plan to buy, 24% Don't know enough
- **Accident Insurance**: 51% Plan to buy, 49% Don't plan to buy, 21% Don't know enough
- **Long Term Care Insurance**: 37% Plan to buy, 63% Don't plan to buy, 23% Don't know enough
- **Critical Illness Insurance**: 36% Plan to buy, 65% Don't plan to buy, 23% Don't know enough
- **Disability Insurance**: 34% Plan to buy, 66% Don't plan to buy, 36% Don't know enough
- **Annuity**: 29% Plan to buy, 71% Don't plan to buy, 24% Don't know enough

**Most Education Needed**
For Gen Z, confusion over the category as well as impending student loan debt pose barriers to securing their financial futures

70% believe student loan debt will make it hard to put money towards the future

69% feel that figuring out how to start planning for their financial future is too confusing

66% say they don’t know enough to start planning for the future

**7 in 10 High Schoolers and 7 in 10 “Planners” we identified also agree**

Among older generations we continue to see that the top barriers related to financial planning include confusion about understanding insurance and retirement options, along with prioritizing near-term expenses.
Latinos, African Americans, and those from Single-Parent households are more likely to say the category is confusing.

“Figuring out how to start planning for my financial future is too confusing”
(% Strongly/Somewhat Agree)

- Gen Z Total: 69%
- Latinos: 75%
- African Americans: 75%
- Single Parent Households: 77%
Most Gen Zers are considering undergraduate and graduate education degrees that will come with a price tag.

- **33%** of Gen Z are currently in college.
- **95%** of Gen Z High Schoolers are considering pursuing an undergrad degree.
- **82%** of total Gen Z are considering pursuing an advanced degree (e.g., Master’s, P.h.D., etc.).

Many who proceed with their plans to complete undergrad and advanced degrees will need to take out student loans.
Student loans are a major inhibitor to Gen Z’s financial planning

3 in 4 either have student loans today or expect to in the future

49% of those teens expect to take out at least $30,000 in student loans

They believe they should start saving for retirement at 27, but those who currently have loans or expect to are pushing their starting age all the way to 31.
Overall, Gen Z are forward-thinking and driven to plan for the future

- **96%** want to save enough so they can live comfortably in retirement
- **95%** want to plan for their financial future so their family will be taken care of
- **94%** want to save enough so they will be able to retire
- **89%** say planning for their financial future makes them feel empowered
When they enter the workforce in a few years, they will be seeking well paying jobs that inspire them and offer good benefits.

**Top 3 Things Gen Z are Looking for in a Job**

- **Competitive Pay**
- **Inspiring Work**
- **Good Benefits**

**How important is it for you to have a job that...**

We can learn a lot from Generation Z

**Take Steps to Plan for the Future**
Nearly 2 in 3 Gen Zers are already thinking about and planning for what’s ahead, which will help them so they don’t fall behind later on. In 2016, Lincoln’s M.O.O.D. study finds that adults are underprepared for many financial scenarios, including retirement, and protecting themselves from an income disruption. So if you haven’t already, start putting a plan in place to get your future on track.

**Do The Work to Overcome Barriers**
Gen Z aren’t the only ones who face major barriers (e.g. student loan debt), or believe that financial planning is confusing. Adults are also confused, and they face other financial concerns like healthcare expenses, debt, paying their bills, retirement planning, and taxes. Overcoming these barriers requires a game plan, dedication, and not being afraid to ask for help.

**Seek Advice from Trusted Sources**
You don’t have to do it alone. Gen Z is actively seeking advice from others, whether it’s talking with their parents or friends, Googling, or even reading financial blogs. Make sure you’re taking advantage of any resources that can help – friends and family, yes, but also a financial advisor to help you create a plan and help you prepare for your financial future.
Lincoln Financial Group provides advice and solutions that help empower Americans to take charge of their financial lives with confidence and optimism. Today, more than 17 million customers trust our retirement, insurance and wealth protection expertise to help address their lifestyle, savings and income goals, as well as to guard against long-term care expenses.
