

# Remote Deposit Capture

**Accelerate funds availability, reduce costs and risk with automated check processing.**

For many companies, accepting paper checks is an everyday fact of business life. Get faster access to cash by converting checks to safe, efficient electronic deposits. With Remote Deposit Capture, you can scan and securely deposit checks directly into your account without leaving your business by using your computer.

## How it benefits your business

- Reduce the time, costs and risks of transporting paper checks
- Streamline deposits and accelerate funds availability
- Speed collections and cash flow with extended deposit window

## Improve efficiency by converting paper checks to digital images.

Integrated search and reporting features speed reconciliation and record keeping. Individual images of checks are easily accessed and deposit files may be downloaded in CSV, QuickBooks®, and other useful formats.

### Extended deposit deadline.

Deposits can be made from multiple locations and consolidated into a single account, with deposits prior to 9:00 p.m. CST Monday-Friday receiving same day credit.

Capture the check images and transmit them to BBVA over our secure online transfer network.

We credit your account and send you an acknowledgment email detailing the file name, dollar total, item count, and time of receipt.

Non-conforming items can be rescanned and resent or deposited at a BBVA branch.

## Let's get started
